SAN CRISTOBAL ISLAND

Galapagos Day Tours

HIGHLANDS OF SAN CRISTOBAL

TOUR DESCRIPTION

This day we will explore with a guide the highlands of San Cristobal. We will first visit the Junco lagoon, an extinct crater lagoon where frigate birds come to rinse their wings from the salt and also Bahamas ducks. Then we will head to the tortoise breeding center where they breed endemic tortoises in order to release them after approx. 5 years into the wild. Lunch will be served in a nice farm. After a break in the hammocks we will continue our exploration and go to Puerto Chino beach where we can swim and spot blue footed boobies and sea lions.
